

NATEC GROUP

The Group

Natec Group is a Russian private investment, power generation and engineering company. Main activities of the group are located in Russia. The group was formed during 2003-2008 and specializes in delivering turnkey power solutions. Natec is engaged in short and long-term delivery of electricity, heating and cooling to its clients. NATEC is not affiliated with any of the companies of ex RAO UES (United Energy System of Russia). The Group is investing, constructing and operating local power station (from 30 to 40 MW each) for energy supply of first class clients in industrial clusters and office areas.

The main target of the group in power generation is to achieve capacity:

150 MW by 2012

JSC National Engineering Company

Formed 2002

Number of employees 37

Main activities EPCM-contractor, turnkey projects in power generation (power plants 30-200 MW). Also since 2009 the Company patented and produces energy equipment for oil industry.

Revenue 2007 – 226 738 000 rubles*

2008 – 274 823 000 rubles*

2009 – 213 815 000 Rubles*

2010 (estimated) – 240 000 000 Rubles*

2011 (estimated) – 300 000 000 Rubles*

Head office	Moscow Region, Russia
Recent projects	2007 Myakinino Power Station (30 MW) 2008 Noginsk Gas Turbine Power Station (32 MW) 2011 Lobnya Power Station (36 MW)
Current projects	2011-2013 Zelenograd Power Station (32 MW) Lipetsk Power Station (36 MW) Adygeya Power Station (30 MW) 2 Stavropolye Power Station (25 and 15 MW) Kamaz Power station (30 MW)

JSC Natec-Invest Energo

Formed	2006
Operating	Myakinino Power Station. Electricity, heating and cooling production and delivery for an office area (total 300 000 sq.m). Main consumers: Moscow Regional Government, Moscow Region Court, several A-class business centers
Number of employees	22
Main activities	investments in power generation, exploitation of power stations, direct delivery and sale of electricity, district heating and cooling
Power capacity	30 MW
Revenue	2007 (since September) – 47 000 000 Rubles* 2008 – 209 826 000 Rubles* 2009 – 134 046 000 Rubles* 2010 (estimated) – 190 000 000 Rubles

JSC Natec-Energo

Operating	Lobnya Power Station. Will be put into operation Sept. 2010 Electricity, heating and cooling production and delivery for an industrial cluster in the city of Lobnya (near Sheremetyevo Airport). Main consumers: Tetra Pak, Dohler Ag, MetallProfil Ltd
Number of employees	18
Main activities	investments in power generation, power generation, exploitation of power stations, direct delivery and sale of electricity, district heating and cooling
Power capacity	36 MW

Revenue 2011 (estimated) – 190 000 000 Rubles*

Natec-Energo Project Ltd.

Formed 2008

Number of employees 75

Main activities Turn key design in power generation (power plants 30-200 MW)

Head office Moscow Region, Russia

Recent projects more than 20 power and boiler stations total capacity more than 250 MW

Current projects: Four power stations for energy supply of the Asia-Pacific Economic Cooperation (APEC) in 2012 in Vladivostok (Russky Island) total capacity more than 80 MW.

Revenue 2008 (since September) – 36 000 000*
2009 – 94 200 000*
2010 – 140 000 000*
2011 (estimated) – 170 000 000*

Natec EnergoProm Ltd.

Formed 2008

Main activities Production and installation of energy equipment - Fast operation Switchgear to biggest Russian oil and metallurgical plants

Revenue 2009 – 65 000 000 Rubles
2010 – 95 000 000 Rubles
2010 (estimated) – 120 000 000 Rubles
